The diamond never wears out. It has never diminished in value. It is a good investment. Keep a large stock loose and mounted.

**J. P. MULLALLY**, Diamond Importer and Jeweler  
28 Monument Place.

**BUSINESS MEN ANXIOUS TO HAVE STATE FAIR HELD**

Committee Will Be Named to Confer with the State Board of Agriculture.

**BONUS NOT YET OFFERED**

If a state fair is not held this year it will not be because the business interests of the city are not demanding it. The assembly committees of the Merchants' Association, the Commercial Club, the Manufacturers' Club, Jobbers and the Hotel Keepers' Association met at the Commercial Club rooms yesterday afternoon and thoroughly discussed the situation.

It was the unanimous sentiment of all the clubs represented that the fair should be held as usual and that a determined fight should be made to secure it. No action was taken on the question, however, of offering the State Board of Agriculture a bonus. It was decided to ask the meeting of the board of directors of the Commercial Club to-day to send a strong committee to confer with the State Board of Agriculture, and to use every effort to have a fair held in the coming fall.

**LAW IS HELD INVALID BY SUPREME COURT**

The Supreme Court yesterday ruled that the law of 1926, providing that the secretary of a local Board of Health should be a graduate of a medical college recognized by the State Board of Medical Registration and Examination, is unconstitutional. The case was appealed from the Circuit Court of Perry county. Dr. James B. Bennett was appointed secretary by the commissioners to succeed Dr. Claude F. Hendershot, whose term expired Jan. 1, 1930. On the grounds that when the commissioners allowed him to remain in office until after New Year's, and that Bennett had never graduated from a medical college, Hendershot brought suit. The case went against him in the Circuit Court, and the Supreme Court upheld the ruling.

**CORY & HEIDENREICH, 35 N. ILL.,**  
Good Clothes Makers.  
Special prices on Suits and Overcoats.

## COMMANDER OF FILIPINOS IS GUEST OF GOVERNOR

Indiana Regular Army Officer Will Bring Native Charges to World's Fair.

AT PHILIPPINE VILLAGE

Lieutenant Fathers Plan to Revolutionize Army Merit System for Philippine Veterans.

Lieut. Charles E. Dority, after four years and four months of service with the regular army in the Philippines, has returned to his native State, Indiana, for a three months' leave, and is the guest for the next few days of Governor Durbin. When the Governor was colonel of the One-hundred-and-sixty-first Indiana Volunteer Infantry, Dority was a member of the same regiment.

Peculiarly vivid is the story of the conditions in the islands, as told by Lieutenant Dority. Being in command, not of an American company, but of a company of native scouts, the lieutenant is more familiar with topographical and social conditions on the islands than a majority of the American soldiers in far Eastern service.

At the conclusion of his visit in Indianapolis he will go to San Francisco to rejoin his command of swarthy natives. They will be the center of attraction at the Philippine village at the St. Louis exposition.

Lieutenant Dority, it is said, has fathered the plan to make all officers of native commands in the Philippines when they are mustered out, admissible to positions of high rank in the regular army service. Lieutenant Dority may discuss this with the Governor during his stay here. Dority's plan is to retain the same credits under the present system of discharges in the Philippines.

Lieutenant Dority's home is in Michigan City.

## GREEKS ARE FINED ON A GAMBLING CHARGE

In Police Court yesterday morning twenty Greeks were arraigned before Judge Whallon in answer to a charge of playing poker in a room over Davis' barrel house, at Washington and Liberty streets. Fourteen of them were fined \$10 and costs each and the remaining six were allowed to go on suspended sentences. The fourteen men who were fined had faced Judge Whallon before on charges of gambling.

## CITIZENS ARE ALIVE TO ARMY POST QUESTION

Merchants' Association and Commercial Club Directors Will Meet To-Day.

W. E. ROCKWOOD'S PLAN

The immediate danger of losing the army post site through failure to close the deal with John Roberts has inspired the different business clubs of the city to action. The Merchants' Association has joined forces with the Commercial Club and the two will hold a meeting to-day, when the question will be discussed. The suggestion offered by A. A. Young to raise a guarantee fund of \$5,000 and that the government at once begin condemnation proceedings will be considered. It is understood that the government would pay all the land owners except Roberts as soon as the guarantee fund was raised and that Congress would then make the million dollars appropriation.

An answer has been received from John M. Todd, representing Mr. Roberts, to the letter sent him by Mr. Hoover, directed by the Commercial Club. Mr. Roberts refused to enter into any controversy concerning the case at all. He said that he and his wife executed a deed to the government which is held in escrow and will expire March 1, 1931. This answer will be presented to directors of the Commercial Club at their meeting at noon to-day.

W. E. Rockwood, 1212 North Alabama street, suggested to the Journal last night that it would be a good plan to start a subscription and ask for only \$1 from each subscriber. He was of opinion that it would be only a few days, under this plan, until the fund could be raised. He suggested that one of the trust companies hold the subscriptions.

**BIG SUM IS PAID FOR VEHICLE LICENSES**

Single Company Is Assessed Fee of \$199 by City for Wagons and Bicycles.

The largest single bill for vehicle licenses that has been paid into the controller's office this year was paid yesterday by Kingan & Co., Ltd. The bill amounted to \$199. This is for all kinds of vehicles, including two-horse wagons, four-horse wagons, buggies, bicycles and others. This license fee will be collected by only one other Indianapolis company, if by any, the Indianapolis Brewing Company.

**CITY EMPLOYEES VAINLY AWAIT GHOST'S COMING**

Long Delayed Pay Day, Heralded for Saturday, Is Delayed for Longer Period.

Since Dec. 22, 1930, city employees have not had a pay day, and the end of this month has been awaited for several weeks with a frankly avowed longing. "You may say for me," said one of the clerks in the City Hall yesterday, "that I am broke," and several clerks who heard him breathed "amen."

Whether to-morrow would be pay day for them has been a cause of much solicitude on the part of the clerks. The pay rolls of the various departments will be approved by all the boards to-morrow, and now the clerks wonder whether the controller's department will have time to make out the warrants for salaries by Saturday.

"You can set their minds at rest on that point," said Deputy Controller Bueneag yesterday afternoon. They won't be paid until Monday. They'll be hustled to get the warrants out by then."

**Will Write About Schools.**

Her purpose to investigate the claim that the Indianapolis school system is the best in the United States, Mrs. Adole Marie Shaw, of New York, is here to make an inspection. She represents an Eastern magazine, and her investigations will extend to other schools of Indiana before they are concluded.

"While in the East preparing a series of magazine articles," said Mrs. Shaw, "I heard that the schools of this city were the best in the country."

She is well known as a writer on educational subjects.

## WAY PAVED FOR SHORTER COURSE IN MEDICINE

Indiana Students Will Have Same Advantages as Those in Other States.

MEDICAL BOARD MEETS

If the plan agreed upon by members of the State Board of Medical Registration at a meeting last night at the Claypool is adopted by the colleges and universities of the State it will be possible for the man or woman desiring to become a physician to secure a literary education as well as a medical one in six years.

This plan is now following in universities of many States and has proved successful. In Indiana, at this time, in order to gain the degrees of B. S. and M. D., the student must spend seven years in college, four in literary studies and three in medical pursuits.

**PRELIMINARY STUDY NEEDED.**

It is the opinion of members of the board that every candidate for the M. D. degree should first have completed a course in some good college, university, or, in the larger cities, the high schools when well equipped. It is believed that, if the plan is adopted, many students will be saved to the schools of this State who would, under the present system, attend school in some other State where the six-year course has been adopted.

The following statement was issued by the members of the board last night: "Graduates of a regularly established university or college of arts or science, or college of dentistry, that requires at least three years of attendance, the essential to graduation, or students presenting satisfactory certificates from a recognized university or college of arts or science, or of having completed three years of such course, may be admitted to the essential requirements of this board as herein mentioned."

**CONCESSIONS MUST BE MADE.**

"But such student must complete all the work of the freshman and sophomore years before he can be advanced to the junior year in said medical college."

Every effort will be made to have the plan universally adopted in this State. A member of the board said last night: "While it means that both sides will have to make some concessions, we will do everything to have the plan a success. Indiana students should have the same advantages as students of other States."

In every literary college or university during the senior year the fundamental principles of medicine are taught. The subjects taught are practically the same as those in a regular medical college.

## FORCE OF COLD WAVE HAS BEEN FULLY SPENT

No Immediate Recurrence of Bad Weather Conditions Expected Locally.

TRAIN TRAFFIC BETTER

As was expected by the Weather Bureau, zero weather was reached Wednesday night, but there will be no immediate recurrence of the cold wave, which has now all but spent its force. Snow storms may be expected in northern portions of the State, while rain would cause no surprise in southern Indiana, if the present moderation is continued. Vigilance among those interested has not relaxed, and the danger of floods causes much apprehension.

Trains yesterday from the West were delayed at Union Station, but, fortunately, they arrived, in several instances, on time.

With Eastern trains it was different. No. 27, the Panhandle St. Louis Limited from New York, was delayed six hours late, and west-bound trains were from two to four hours late, due to weather conditions.

Locally, traffic suffered no inconvenience yesterday on account of the weather, and as rapidly as possible snow has been cleared away, so it has proved an obstruction. Much better conditions are in sight as long as the present cold weather continues, except flood danger, nothing is feared.

**HIGHWAYS OF GLOOM WERE THE STREETS**

Heavy Pall of Smoke Hung Over the City During the Evening.

While scientifically-bent, people may explain it away in the simplest manner, the pall of smoke which overhung the city yesterday morning and last night, defies all explanation as to staying qualities. Intangible, but felt everywhere, the smoke dimmed all lights in the uptown districts last night and the busy thoroughfares were highways of gloom, through which even a searchlight could not well penetrate.

The high humidity of atmosphere, attendant upon change in weather conditions, is given as the cause. Such a state insulates smoke, or if it rains, raindrops would result.

At times, in certain sections of the city, the sulphurous fumes of the coal smoke caused much inconvenience to citizens.

**NEW AUTO COMPANY'S CAPITAL IS \$15,000**

It Will Have a Place of Business in This City—Other Concerns.

With a capital stock of \$15,000 the North Side Auto Company, formed by Indianapolis men, was incorporated yesterday. The incorporators are Frank M. Bachman, Robert Keller, Charles Krauss and Conrad Mueller. The directors of the company are Samuel E. Rauh, Henry Sevring, Harry Murphy, L. W. Wynne, Dr. E. D. Clark and Dr. L. H. Dunlap. The company will buy and sell electric automobiles and wagons, repair automobiles and do a general electrical business.

The Pokagon Home Association was incorporated with a capital stock of \$25,000. It is the purpose of the company to deal in real estate and loans. From the money received in this business a hall will be erected for the use of Pokagon tribe, No. 225, I. O. R. M. The directors of the association are Fred C. Reichert, Charles Seitz, George McKibbin, Charles M. Allen, Leonard M. Quill, George O. Smith and Charles A. Reichert.

Other incorporations yesterday were: State Bank of Walcottville, Ind.; capital stock, \$25,000. President, Frank P. Sanders; cashier, Almon B. Gillee.

Muncie Drilling Company, Muncie; capital stock, \$10,000. President, Eugene W. Kelley, G. A. O'Neil, J. M. Walker.

Hickman Manufacturing Company, of Muncie, filed notice of issuance of \$50,000 of preferred stock.

Hoosier Boiler Supply Company, of Terre Haute; capital stock, \$10,000. President, W. Smith, Frederick E. Rigney, Louis Reichman.

New Piano, \$250 and up. Walschner's.

## COMPLAINTS RECEIVED OF HOSPITAL BOILERS

It Is Said They Are Called Upon to Furnish Greater Pressure than They Can Stand.

ATTITUDE OF ENGINEER

A meeting of the City Board of Health that was held in the board's office yesterday morning received a report from Dr. Martin, superintendent of the City Hospital, that indicated a serious condition of the boilers at the hospital, and the need of immediate relief in the shape of more or larger boilers.

Dr. Martin reported that an inspector for the insurance company that holds insurance on the hospital had inspected the boilers and reported them greatly overworked. The statement was made by a member of the board last evening that these boilers had originally been built to furnish from sixty to sixty-five pounds pressure, but that they were furnishing about ninety pounds at the present time, and that this condition was caused by increased demands on the boilers.

Upon receipt of Dr. Martin's report, the board decided to request Mayor Holtzman to appoint some person, either an architect or some other capable man, to thoroughly inspect the hospital upon his report the board proposed to base a request to the City Council for an appropriation that will cover all needed improvements and changes at the hospital.

A statement with regard to boiler conditions at the hospital contradictory to that made in Dr. Martin's report to the board was made to the Journal last evening by one of the engineers at the hospital. He stated that there are four boilers that are only used two at a time, alternately; that these were standing about seventy pounds pressure, and that he did not consider them overworked in the least.

"An inspector," said the engineer, "ought to know that his business is not to think the boilers are working under normal conditions. Sixty pounds pressure would not be sufficient for his business, as we furnish our own light, and we have not been called on for anywhere near ninety pounds at any time. Under an emergency the boilers would stand 150 pounds, but that, of course, could not be sustained."

Yesterday's meeting of the board John J. Foley, who has been an inmate of the hospital, made complaint of alleged ill-treatment there. The board directed Dr. Martin to investigate the charges and to report.

It was decided by the board that present interns resigning before the expiration of their year of service shall receive certificates of service instead of diplomas, and that after this year no certificates or diplomas shall be given to interns except at the close of a full year's service.

With the "insanity trust" of malodorous memory in mind, the board decided that hereafter no employees of the Board of Health shall be allowed to file affidavits in insanity cases.

## NEW BUILDING LAWS INSURE SAFE THEATERS

All Features to Prevent Accidents Are Embodied in the Proposed Ordinance.

The Council committee on public safety and morals, of which Councilman-at-large Lew W. Cooper is chairman, will meet with the building ordinance committee at one of that organization's regular semi-weekly meetings in the courthouse this evening.

The building ordinance committee is working on the proposed new ordinance which will be submitted to Council within a month or six weeks, and the Council committee, headed by Mr. Cooper, to which has been referred the several theater fire-protection ordinances, will attend to-morrow's meeting.

The discussion will be informal to learn something of what the building ordinance committee is doing and proposes to do. Mr. Cooper stated that he did not think any theater fire-protection ordinances will be reported to Council at the next meeting. Monday evening, and that they will not come up unless called into discussion by some member of the committee.

The committee wishes to fully inform itself on all phases of the question, and members believe that the proposed building ordinance will include all that is good in the special ordinances that have been referred to it.

**MANY ATTEND FUNERAL OF LATE JUSTUS C. ADAMS**

Services Over Body of Distinguished Dead Marked by Simplicity.

The late Justus C. Adams, one of the prominent business men of Indianapolis, was buried yesterday afternoon at Crown Hill Cemetery after simple but impressive services.

He was one of the most prominent men in the State's manufacturing circles and was well known politically, having been a member of the State Legislature not at one time speaker of the House of Representatives.

The funeral services were conducted by the Rev. M. C. Pearson, of the Friends' Church, under the auspices of the Scottish Rite Masons, of which Mr. Adams was a member.

The floral decorations were very elaborate and the funeral was one of the most largely attended in the history of the city of Indianapolis. After the services the body was interred in the family vault at Crown Hill.

**CHURCH REPORT SHOWS ENCOURAGING GROWTH**

New Members Added to Roster and Dollars to the Building Fund.

Final reports of all the officers of the Sixth Christian Church at its annual meeting last night showed the church to be in the most prosperous condition of its history. Fourteen months ago the Rev. A. L. Orcutt became its pastor and since that time there has been added to the church roll 104 members, which makes the roster show a complete list of 263 resident members and nearly 200 nonresident members.

With a balance of \$157.90 to start the closing year with the net receipts showing \$2,000 for the last twelve months, of this amount \$1,000 has been paid out on the building fund.

The officers elected for the new year are: Elder, S. E. Kinnick; deacons, Ray Barnes, George W. Weir and Marshall Gardner; treasurer, George W. Weir; clerk, Dr. E. V. Canfield and treasurer of the building fund, E. M. H. H.

At the conclusion of the business meeting a reception was given for the new members.

**Vital Statistics of City.**

Sixty-nine more boys than girls were born in Indianapolis last year, and of these the total number was 3,667. The sex statistics reverse the usual order, as girls ordinarily outnumber boys in the number of new arrivals. Of last year's newcomers 3,284 were white and 276 colored.

In death statistics the figures compiled by the Board of Health show that tuberculosis claimed the greatest number of victims—235. Pneumonia came next, with 27 victims, and heart disease third, with 215. These vital statistics were compiled for the Board of Health by Dr. Fred Towles.

## VOTING MACHINE SALE IS BLOCKED BY COUNCIL

Members Spring a Surprise by Defeating the Plans of the Commissioners.

ECONOMY THEIR PLEA

Others, in Reply, Cite Expenses of Fall Election to Support \$75,000 Purchase.

The ordinance presented by the Board of County Commissioners for the appropriation of \$75,000 for voting machines for Marion county was voted down in the County Council meeting yesterday. The commissioners were very much surprised at the action of the Council, as there had been no word spoken in opposition to the appropriation. Councilmen Rockwood, Johnson, Pfendler and Pierson voted against the appropriation and Councilmen Nordyke and Gardner were in favor of the passage of the ordinance. Councilman Blair was absent.

Those who voted against the ordinance gave as reasons for so doing that the county would be able to save money by waiting until the machines had been perfected. They said that the price paid for the ten machines last year was exorbitant, due to lack of competition. Commissioner McGregor urged the appropriation, stating that \$100 could be saved by the county at the fall election if the machines were used.

Councilman Gardner, who voted for the appropriation, said that the county had already lost \$5,000 by its delay in buying the machines, and that further delay would mean additional loss.

The Council appropriated \$5,000 for the support of dependent children sent to various institutions by the Juvenile Court. An appropriation of \$10,000 for the erection of new cottages at the Soldiers' Home at Lafayette was also made.

Council also ordered the following appropriations of money which was turned back into the treasury at the close of the year 1930:

White river bridge, West Washington street, \$41,416; College-avenue bridge, \$38,065; Mount Nebo bridge, \$2,540; bridge over Fall creek between Sections 20 and 21 Township 17, \$2,172; for dry wall and fill at Raymond-street bridge, \$400.

## RESIDENTS OPPOSE THE CAR-LINE EXTENSION

Protests Continue to Block the Purpose of the Street-Car Company.

Extension of the Pennsylvania-street car line may meet with decided opposition from property holders along any one of several routes proposed, and those residents of the district that would be benefited by the extension and who petitioned the Board of Public Works for it at the Monday meeting may find difficulty in agreeing on a route that will not be strongly opposed.

The line could be extended either on Pennsylvania or Delaware streets or along Talbot avenue, but residents on all these streets are said to be against the proposition of running the line in front of their property. At the time of the petition to the board the matter was not taken upon, as no route was specified in the petition. It was suggested that the petitioners take the matter up with the street-car company and see if a satisfactory route could not be agreed upon.

## CHILD IS ABANDONED AFTER A SLEIGH RIDE

S. E. Hollis reported to the police yesterday morning that his seven-year-old daughter Margaret had been injured to Brighton Beach by a stranger, who gave her a ride in a sleigh, and because she refused to kiss him, according to her statements, he put her out into the snow.

The girl said that she was on her way to school Tuesday morning when she met the man. He stopped his sleigh and asked her if she would like to go with him. He said he would take her to school, but after she stepped into the sleigh drove to Brighton Beach. At Brighton beach he asked her to kiss him, and on her refusal to do so put her out in the snow, and, turning his sleigh around, drove back toward the city.

The child was taken into a near-by house and later was sent to her home on a street car. Detectives were notified and yesterday made a fruitless search for the man. It is believed that the man intended to attack the child, but later abandoned his plans. Detectives have no clue to his identity as yet and are still working on the case.

## DECORATOR OF CAPITOL BURIED IN THIS CITY

Charles J. Moore, 606 North Senate avenue, was buried at Crown Hill Cemetery yesterday afternoon. Mr. Moore was a well known painter and decorator and was killed by a train at Eldon, Mo., several days ago. His death was the result of deafness. He was standing on the railroad track and did not hear the approaching train. Moore had been working on the St. Louis bridge, and while in Indianapolis did much of the decorative work on the State Capitol building. He is survived by his wife and two children.

**Commercial Club Ticket.**

Independent ticket No. 2 has been entered in the contest for directors of the Commercial Club. The ticket contains the names of F. E. Gavin, John Sautter, Joseph Schaf, P. D. Raymond, John J. Appel, Horace McCay, Fred Hetherington and L. J. Blair. The election will be on Feb. 8 from 10 to 4.

**INVITATIONS ARE SENT TO OUTSIDE MERCHANTS**

Local Jobbers and Manufacturers Want Their Stock of Goods Inspected.

Notice has been sent out by the Jobbers' and Manufacturers' Association of this city to the out-of-town patrons of the Indianapolis merchants inviting them to the city in February and March to inspect the stocks of goods in salesrooms and factories. A one- and one-third-fare rate has been secured for the purpose, and the associations are expecting a large number of people from out of the State at that time. The notice contains instructions as to what the merchants should do, and the names of all the merchants in the association.
